Good morning,

yes, Wednesday morning Chris fogged from the cottage all around the Main Compound

Evening

Shower head - I believe the issue will be that we had to change out the heating coils in the water heaters today, basically you had no hot water, water heaters had to be drained. I ran all faucets and the shower heads after new coils were installed but clearly that was not enough so will remove and flush out shower heads tomorrow

AC - found that battery required replacing this afternoon, changed out but obviously did not get cool enough in time, sorry about that

Regards

Karen
