

Draft English translation for information purposes

Paris, August 27th, 2013

0/REF : 1303161-PC/GV
Building: 22 Avenue Foch
75016 PARIS

Dear Sir and Madam,

For your information, in accordance with the decisions of the General Meeting held on June 13, 2013, we shall now proceed with the facades cleaning works of the building located 22 Avenue Foch, facade on avenue Foch, on rue Chalgrin and small inner courtyards facades.

Those works will be performed by the firm LA COLONNADE. They require the installation of scaffoldings along the street facade, which shall start on September 4, 2013 from the facade on avenue Foch with extension on the rotunda. The works of this facade should end by Christmas and be followed by the works on rue Chalgrin and in the small inner courtyards.

Please make sure your windows are properly closed and your insurance company is informed given the scaffoldings involved in the works.

We also recommend that, inside the apartments, all decorations, items, paintings, curtains or any other ornaments behind and around the bay windows be removed during the works' period.

Please be aware that a facade cleaning generates dust despite the precautions taken by the workers.

An inventory of the apartments will take place on **Tuesday September 10, 2013** from 9 am. Please make sure your apartment can be accessed that day. Should you not be present, please leave your keys with the door keeper.

The present is for due information of the co-owners. Please excuse any inconvenience that may occur.

Yours sincerely,

Philippe CAMAIL
