Subject: To Prof Neuman Re: Lunch w/ Dean Sork, iMABS Board

As you requested, Dan - an email reminder re: lunch with Dean Sork. Wednesdays any time after 11A work best with my schedule but if it needs to be a different day of the week I can reschedule patients as needed.

I'm attaching the Course Development Proposal and CV Dean Judi Smith requested last month in advance of her meeting with Victoria re: adjunct professorship and support for an Auditory Neuroscience of Music, Speech & Voice Perception course that, like my Music Mind & Brain advanced topics seminar (MusInd 103), would be accredited for majors and minors in the Cognitive Science, Psychobiology, Neuroscience, Musicology, Ethnomusicology, Music Industry. and Integrative Biology & Physiology undergraduate programs at the School of Letters & Sciences.

Thank you again so very much for your time and interest and for joining The Institute for Music & Brain Science Board - information about the Board and iMABS' mission is posted at <http://www.BrainMusic.org>. I will try to schedule a Board meeting in the next few weeks via Google Hangout. David Alexander MD, a Neurology professor who is Director of the new California Rehabilitation Institute in Century City, a UCLA-Cedars joint venture that is the largest inpatient rehabilitation medicine hospital west of the Mississippi, also joined the Board this week.

Yours,
Mark
