---

It appears from email chain that we need 60 tiles to complete current project  
I am unsure of your thoughts on keeping additional inventory for future projects

Stone from the DR:

400 pcs 16 X 16 X 1.5 coping - EDA to DR port, January 2015

$400 \times 12.50 = \$5,000 + 250 = \$5,250.00$

Shipping 20' container = 3,000

Total Cost = 8,250

(I need to inquire how many pieces can fit in a 20 container)

Timing = January 2015 (no precise date yet given)

Stone from Miami:

400 pcs 16 X 16 X 1.5 coping - EDA to FL port, 12/22 or 12/23

$400 \times 14.50 = \$5,800$

Shipping 250 x 7 = 1750 + 250 trucking = 2,000

Total Cost = \$7,800.00

Timing = Will ship Dec 22/23 from Miami to STT

Please advise Miami or DR for tile and quantity desired  
Thank you

Greetings Rich,

Tropical only ships Full Container Loads from DR to STT:

20' container = \$3,040.00

Per Luis, the 400 tiles fill about 7 pallets - estimates \$250 per pallet in shipping costs from FL to STT:

7 pallets @ \$250/pallet = \$1,750

Estimate of Shipping costs?

Miami and DR please

We would need 60 tiles to finish the steps at the Main compound.

Please have anna answer how much is needed to complete job and how much extra  
Also what is shipping costs?  
Thanks

Greetings Rich,

Mellie - answer the quantity price please

In regards to the \$14.50, my understanding from Luis is he is not the vendor, he has sourced it from another vendor who has it in stock in Miami for us. The DR is from the quarry he does business with directly.

I wrote it so you can send directly to JE to advise, once you get the answer on the quantity, OP

What does 400 pieces mean. We should seek jee input and also attempt to get Miami pricing for 13.5. I am happy to make that call but need property quantity from jee. How much needed to complete Job. How much extra?

Greetings Rich and Anna,

Stone from the DR:

400 pcs 16 X 16 X 1.5 coping - EDA to DR port, January 2015

$400 \times 12.50 = \$5,000 + 250 = \$5,250.00$

Stone from Miami:

400 pcs 16 X 16 X 1.5 coping - EDA to FL port, 12/22 or 12/23

$400 \times 14.50 = \$5,800 + 250 = \$6,050.00$

Your thoughts, DW

Good Evening Mrs. Wallace,

The options are the following:

From DR 400 EA 16 x 16 x 1 1/2 priced at \$12.50 per Piece. Possible ETA January 2015 in Port.

From Miami From DR 400 EA 16 x 16 x 1 1/2 priced at \$14.50 per Piece ETA Miami December 22 or 23 to Tropical's warehouse in Medley.

You have to add \$250 for delivery from warehouse or factory to shipping facilities.

I need to know your decision as soon as possible. I did mentioned that my productions slots in the factory for 2014 are occupied. So the only chance to get this in 2014, is use my associates slot to put in your order.

Best,

Luis Felix
