Subject: How

To: [REDACTED] >

Dear [REDACTED];

How is your Boss Jeffrey evaluating our TSH1 efficacy? TSH1 efficacy is dependent on the decomposition of homocysteic acid in blood. But how can TSH1 decompose homocysteic acid in blood? This is a key point. But I can't open the component of TSH1 to show the key point at present. When we make a contract, then I am happy to open it.

Sincerely yours

Tohru
