Jeffrey

this morning i spoke to Bryan at AvJet,. two hours later Kip called me,. Bryan was open with me regarding pricing and stated a below \$30M price would be real and that was off the record,. when I spoke to Kip just now, he is telling me the BBJ is worth \$32M, after speaking with Andrew the President of AvJet and the owner of the BBJ, Kip was short with me on the phone and stated a deposit is what's needed to start real negotiations I informed that we could buy Ali's plane for \$25M and Kip confirmed that Wynn's plane sold for \$28M net to seller after commissions,. Kip stated the interior of Wynn's BBJ needed soft goods and wood.

Personally I dont like Kip or Andrew,. I like Bryan but he's just a sales Assoc, and Kip is a Manager at AvJet and obviously is pushing Bryan to the side with these negotiations.

Kip informed that an offer of \$26 or \$27M would not be taken seriously, and advised against it,. the interior on their BBJ was completed 3 months ago,. I asked Kip for price of interior and where it was completed,. also, Kip and Ali do alot of business together.
