I have lied to many people you are right and I'm sorry for this. However everytime it was for a good purpose. I didn't harm anyone except for myself. For example I could have said the truth about you to the people who paid my school, [REDACTED] and my family but I didn't. I thought it wasn't a very good idea. So I've lied. For [REDACTED], yes I've lied to her. But she never even kissed with him (at least this is what she told me) and beside all this [REDACTED] has a girlfriend. He made me promise not to say anything to [REDACTED] so that she wouldn't get jelous or upset. I'm not justifying myself by saying lying is a good thing or acceptable but sometimes it is necessary if I want to keep my Life private to some people. As you told me once: " Your habit and mine are very used to lie to everyone" and "You and I lie to people, I just wanted you to know that I understand". I'm glad I'm not the only one and we make the same mistakes.

I don't remember whining at the phone. I just told you that we were still looking for a solution for the house. What is the problem with this ? I am also doing private tutoring for toefl and studying.

Instead of trying to understand things by talking about the problem you just interupt the conversation without giving any explanation. I understand that you have more power, doesn't mean you have to act like this with me.

I have had more than enough of you telling me how YOU think- I -should act. this is ridiculous .

I have giving you my time , my advice , much money, . attention guidance, help. by some craziness you think you are owed muchmore .. Your actions , broken promises, over and over, are selfcentered , selfsih, irresonsible and self destructive. your excuses are many, you whine about [REDACTED],? [REDACTED] me, your mother, your school, your job, and when it comes time for you to do something, its blah blah, Hope you feel better.

I don't understand why you react like this... I don't think I said something wrong to you and if I did I'm really sorry. I'm very happy and enthousiastic about going to Paris and starting school. Thank you. However, yesterday I had fever and still now I'm not feeling well. I know you don't like complaints and you always would like to hear me saying that I'm great all the time but I'm not from LA. Sorry, I would love to be always "positive thinking" but I am not this kind of person. Like every human being I have up and down moments and you should accept this. I am always thankful and grateful to you and I think you are great but you can't always blame me for everything I do. I always feel when talking to you that I'm walking on glass and that I should be carefull to every single word I say.... This doesn't make me feel comfortable. Instead of trying to understand things by talking about the problem you just interupt the conversation without giving any explanation. I understand that you have more power, doesn't mean you have to act like this with me.
