Jeffrey:

Apologies, something went wrong with my phone last night and the email I replied to you did not get sent. Please see Original Email Reply below:

Yes, I am still working on pulling together the *True Financials* from the Current Station Owner and hope to have them soon. As soon as I have them, I will get them to you to review.

What I wrote to you about the other day about is completely separate from that topic (I apologize if I caused any confusion on that matter).

This is about you and I picking up where we left off from our very brief discussion in Cambridge around the Current USVI Political Situation, which is becoming more chaotic by the day (But, as we both know, out of chaos usually comes opportunity).

But to get straight to the point, the time for me to do what I do is now and I am getting underway now!

I am only planning on talking to a very small number of people from the VI Community around this work, but I know that you are naturally going to want more specifics before doing anything else, hence the reason I reached out.

I am also only going to discuss this in person (Face to Face), not on the Phone or via Email. So, I will make the time based on whatever works best for your Schedule to meet and discuss what needs to be done to put us in the position we want to be in for next year (2018).

Once again, I am not discussing this topic with many people (At this juncture, I would say, at best maybe three (3) - including you).

I will adjust my Schedule to make myself available when you are back in the states to discuss, if you wish to. Just let me know.

Thanks,

McGee

Thought of you because I'm headed to DC to meet with Stacey right now

Are you back in the States??

Let me know when you are. We should meet, when you have the time, to pick up where we left off in our USVI discussions around the current political situation.

The time to move has arrived and you are one of the people I wanted to discuss things with if you have the time.

Let me know,

McGee

Sent from my BlackBerry 10 smartphone on the Sprint network.
