In Hong Kong I will be meeting the guy who is apparently building the Asia platform for the Agnelli family, mainly for John Elkann (EXOR) not the guy we met in London.

Mr. Tobias Brown

Managing Director of UCL Asia

Mr. Tobias Brown began his career in Hong Kong managing the investments of the late Sir James Goldsmith and, after his death, the assets of his family (ies). He remains closely associated with the Goldsmith interests and has spent the last year working closely with John Elkann to help develop a global investment platform for the Agnelli family of Italy. Mr. Brown has held numerous public and private directorships globally and has served as a member of various government committees in Hong Kong.
