You told me it was in our agreement that I had a job, I find it normal to ask you why and where is this leading since I've got no studies ahead.

You've always repeated me over and over again "having a job means getting paid", so the month of July I've earned 4K. Now that I am earning you tell me: "this is not a real job". Then, when I ask you "can you help me find one ?" Your answer is "I don't know anyone". So I found babysitting which I suppose it's a real job for you. My question is: Since I've got no studies, If I babysit for a period of time can I work for you afterwards or would you help me find a better job ?

I told you that I might have found a job in a juice bar for the month of August and I have my babysitting job from September till all year long. It's easy to find basic jobs even last minute and they're the only thing I can do. I have not forgotten I had the opportunity to study and I'm not blaming anyone except myself. I was just very immature and probably still now, but less.

and when you had the opportunity to study you didnt . it seems you may have forgotten.

Thank you.. I'll be working the day of my birthday since they couldn't move the shoot and will spend all August in Paris. No vacations, no boys, no sun, no fun. My babysitting job is starting back in September.. Even for photo assistant I will always remain at the same basic level since I've never went to a photo school to learn and people don't have time to teach. I would like to spend my time learning something new. I might have found a job in a juice bar in August... I wish I could have a real career somewhere but with no skills and no studies it's impossible, that's why I feel that getting my butt in shape is my only way out.
