When you and i spoke last week you expressed interest in working on future jee projects on a one off basis in addition to sending back your cobra papers.

I thought we had a nice conversation and were on the same page for moving forward.

Over the past 3 days I have left you over 10 messages on your cell phone and home phone with no response.

I have great concerns on how we can work together without communication.

Please contact me or Jeffrey today.

Thank you

Richard Kahn
