Good morning Rich,
Our team is on GSJ installing the multi-cluster box as we speak. Everything will be set-up today but we are making sure everything is connected properly on Danny's side as well. He pulled some new wires into the electrical room. I will send an update towards the end of the day. Thank you.

can you please update on how system has been operating
in addition when will the final part be installed so that we are converted to 3 phase power
thank you

Richard Kahn
