Jeffrey,

Yes, we noticed during odyssey set up last night the McIntosh offers Front high left and right effect speakers,, It appears the Paris speakers provide great tweeter effect., plus durability for corrosion being an outdoor sealed speaker., currently I'm using one Each1000w BelCanto amp to run each of the front Klipch Speakers., and I piggy back the Paris speakers to run 4ohm instead of 8ohm., I'll need two more BelCanto amps to run L/H and R/H high speakers., we can use 500w BelCanto amps for these if you like \$1,795 each instead of the 1000w for \$2695 as I'm using for all front speakers.

I'm using 500w each BelCanto amps for mid and rear surround speakers respectively.

I could use the old Sunfire amps we currently have, but prefer to keep all amps the same., I think BelCanto was a great choice for clear sounding amps., if you agree?

Do you approve Two more 500w BelCanto amps?

I'll check on new line of Klipch speakers as you mentioned.,

I think we made a great improvement all around., A durable projector, McIntosh receiver and IMAX BelCanto amps were all a great match .,

thanks for projector. a few comments. epson manual says, firmware update needed. lets try day of the 8th. ( too good currently to have it screw up ). it says projector has three modes full light. dynamic cinema? not sure how to adjust

macintosh is great. it says it has a built in equalizer. as well as a rear high and a front high speaker , I ve never seen before. lets play . same day
