Technology and professors from The Hebrew University of Jerusalem are receiving high-profile press coverage. Just today, [Intel announced it will buy Mobileye](#), the collision avoidance company based on technology developed by Hebrew University Sachs Professor of Computer Science Amnon Shashua. Numerous news outlets covered the story including [The New York Times](#), [Fortune](#), [Financial Times](#) and [Techcrunch](#).

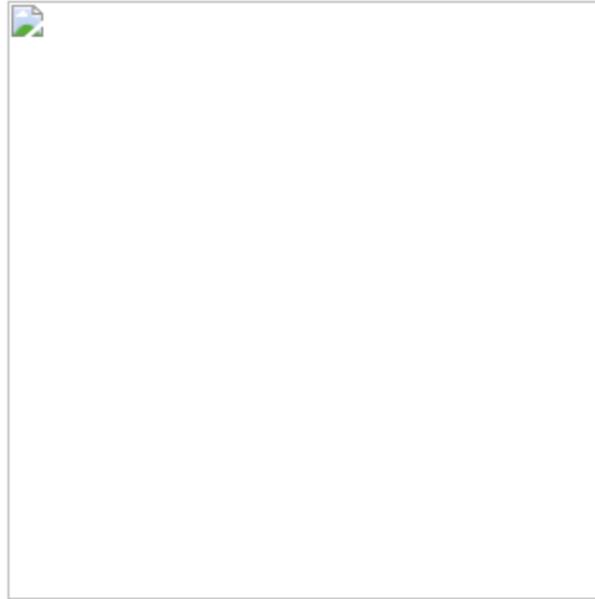

Professor Shashua also jointly founded Orcam, which provides aid to the visually impaired. [The Wall Street Journal \(WSJ\)](#) mentioned Orcam's new product in an article discussing wearable technology. *The WSJ* also mentioned Hebrew University Professor Dan Galai in an [article about the stock market Volatility Index](#).
