---

do not open and print these on your phone. do not print them from "preview" if you are using a mac either. the forms are finicky, they will print incomplete or blank if you print from your phone or the preview. you need the free adobe acrobat reader to print them properly.

if you want, i can print them out for you, and you can pick 'em up from my office monday to get dave's signature.

as a matter of fact, I would PREFER if we do it that way-- if you would come by monday, anytime you wish, and pick up the printed forms. this would be much safer.

also, i still need your last address in russia, and the dates you leaved there (month/year), and, the last job you had outside of the US.

best,

a.
