---

Terrance can't determine whether or not the tower is the issue if Five Palms is not up and Running.

I think Terrance and Jermaine should get everything up and running properly continue doing what has to be done

Good day all,

At this point in time there's 2 hold ups. We lost fiber connection to five palms which became my main point due to the tower change in height. The second is again the tower being so low I'm having a hard time getting it aligned to get full bandwidth. I'm scheduled to be working on that again on Saturday and Monday.

As soon as we get the fiber transceivers back and get five palms back up I can continue the alignment on the LSJ. There's no way I can give a completion date it all depends on these contingencies. Everything is ready to go just ran into these issues.

Regards,

Terrence Rabsatt
