Discussions on where we were, where we are and where we are going in changing world of universal rhythms.

~ This Week's Guest: Grant Noble - September 6, 2012 at 8pm Eastern ~

Grant Noble was a futures broker from 1977 to 1983. Since then he has traded his own account and those of friends in the futures market. He has written articles for virtually every futures oriented magazine, including Futures, Technical Analysis of Stocks & Commodities, etc. He now writes a market letter which he trades for others (like Marc Faber) who write their own letter or do analysis that helps his trading. Samples of his market letter can be obtained by emailing him at gnoble@sbcglobal.net

Mr. Grant has phenomenal observations on national and world history in the context of cycles. The 500+ year cycle documented by famed research Raymond Wheeler correlates with the 500 year power shift between the East and the West. Planetary orbits alter the barycentric position of the Sun and its energy on the Earth to give us our warm-cool cycles and economic shifts. Trends that we are in now bear resemblance to times before and we have clues to where we are going. Tune in and hear Grant Noble's fascinating references to our lives today.

What is Cycles Radio?" *Cycles Radio* explores the Cycles of Change based on the study of your host, K. David Katzmire, who has developed the theory for more than three decades to understand the Cycles of Time. Universal patterns can be found in a person, a nation and in the eras of civilization on different scales of size and time. Therein lie undulating energies of physical, emotional, intellectual and spiritual cycles that are replete through our lives in wonderful fractal patterns that we can discern once we unlock the simple code.

This fascinating discovery has led to notable accuracy in identifying the manifestations of energy that effect all aspects of our lives from; the leaders we choose, our business trends, scientific developments, arts & literature, music & entertainment, sports, fashion trends and much more, all moving to the same universal patterns. This weekly show is dedicated to exploring this inquiry further. Join us and see how these cycles may effect you in the days and years ahead and where you are in the tides of time.

Thank you, K. David Katzmire
