AI estimate of 2000 (16 hours at 125) is for av systems install, termination, integration, and programming. Please advise. Thank you.

NYC

Merwin is unsure of projector wiring and AI says he will not be responsible as it can be a lot of work I will have AI come Thursday to do install and if wires need to be changed i will have merwin involved so AI does not charge us..
please confirm if ok
thank you

Hi Rich,
Not sure who is our a/v guy before AI and Zinon. HMDI is not compatible with 4K. But, there is a wide open ceiling to fish wires from projector to receiver.

who did wiring?

please find out if it is 4k
thank you

Hello Sir,

There's lots of emails going around — some with incorrect information — so I thought it'd be good to recap the status of each house.

NYC / 71st:

Receiver: Marantz AV7005 does NOT support 4K passthrough
Projector: Epson LS10000 is 4K HDR compatible
Cables: uncertain, assuming not 4K

Zorro:

Receiver: Mcintosh MX121AV does NOT support 4K passthrough
Projector: Epson LS10000 is 4K HDR compatible
Cables: uncertain, assuming 4K

LSJ:

Receiver: McIntosh MX121AV does NOT support 4K passthrough
Projector: Epson Pro L1505UNL — upscales to 4K, not actual 4K
Cables: uncertain, assuming not 4K

Palm Beach:

Receiver: Marantz SR7009 is 4K compatible

TV: Samsung UN75HU8550F is 4K compatible, may not support HDR

Cables: uncertain, assuming 4K

Paris... TBD.

I'd suggest sending an Apple TV 4K down to Palm Beach to replace their existing Apple TV and seeing if it works as expected.

If it does, consider the Marantz SR7009 <http://us.marantz.com/us/Products/Pages/ProductDetails.aspx?CatId=AVReceivers&SubCatId=0&ProductId=SR7009> for other locations.

Thank you,

James Ce
