J will be home around 7.30pm... He is going to talk about "his weirdness and his bobble" etc... And that I ve been acting cold with him recently. He has been extra busy over the last few months, all weekends on his blackberry. Tom's thing worked well, he is working on another project now. I just don't get it - we barely have any fun nice time together (I fake fun now), and the money he is making - he is so stingy. He paid for a nice hotel, but got nonrefundable cheap tickets and didn't want to get car service (to save extra 30 USD).... And he didn't let me use my vibrator while having sex with him - so bad!

I can make it up easily - tell him how much I love him, how proud I m, how much I appreciate everything and fake a few comes... Is it the best strategy now?

I really almost lost it last week when he accused me "of not liking babies"... Is he retarded?
