He is "B" of KPBC – a father of VC for healthcare/life science.

I do have a number of friends in the industry and this is why I think that a pipeline will not be my problem (for at least 2-3 years).

How soon can you make a co-investment with us.

New funds are defined by what they do.....more than by what they say.

Thank you so much.

It is tough going through the chemo but she is doing well. Her response to a conventional chemo is very good and in addition the fmi test identified several actionable mutations - so we are including appropriate therapies.

Thank you re your advice. I am aware of this risk.
I am hoping that I can mitigate that.
Also I am anxious to start and feel greatly delayed re Yuri.

It would be great if we could meet that week 25th on - it would be super helpful to have your guidance.

Thank you

Boris

I recall talking about your mother but I didn't want to raise the topic. I am so sorry and hope it is going well.

Nice of Vinod to offer you an office and support....but be careful to be seen by the VC and entrepreneur community as an independent fund from KV.

Brook

Thank you Brook!

I will let Bill know.

Re my plans – I am right now in Croatia (my mother is undergoing chemo for her advanced lung cancer) and I am returning to USA on 23rd. On 24th moving to Palo Alto!

My office is just few blocks from you on Sand Hill Road. Vinod Khosla offered me an office and some of back office help as I am moving forward with my fund.

I look forward to catching up with you!

All the best

Boris

1. I hope your fundraising has simplified since we talked in Seattle.
2. Please tell Bill Gates that I will see him Sunday at the Stanford Commencement. I am on the Board of Trustees so will be in the "robe room" with him before we walk into the stadium.

Brook
