Dear [REDACTED]

I am actually working with my team on what we could propose to Jeffrey for the library and the dining room in New-York. I am also looking for the most softer velvet you can imagine.

As you know, we have a project about the appartement in Paris and you asked me to wait a bit for taking a decision.

We have several sofas bought by Ariane de Rothschild and delivered in our workshop, and they take up to much space to keep them for a long time.

Please tell me if we can begin the work or tell what we have to do with these sofas.

We also gave a solution to re-upholsterer and make more comfortable the dining room armchairs with the fabric and embroidered trimmings Ariane choosed.

Could you tell me what is going on with these projects.

Please also find included the invoice for my trip in october and our banking references for your transfer.

With my best regards.

Rémy
