Jeffrey

I understand your concerns, but most of the earth work involved in this project is Fill and Rocks
Please see attached grade sketch, everything circled requires Fill- Dirt, Pink shade area Rocks with Dirt
The location of the dirt and rocks required for this work are down by the hogs back.
I would advise we proceed with hauling material to MH while those sites are still accessible.
Also disturbing the ground at the MH could limit our access if we get early rain or snow
Once we have enough material to proceed with grading we will hire a dozer.
Steve and Carlos will be on this full time as of Monday next week.

Can we proceed with hauling material first, then grading?

regards Brice
