I remember you telling me about Lawrence Krauss and we called him together. Wish I got that opportunity to work with him in Arizona! Love astronomy! Are you still helping fund him? Smart guy.

And I wanted to just say that I wrote that last email spontaneously, [REDACTED] didn't know and I realize now maybe it wasn't the best moment to reach out with my deep thoughts. Sorry for that, but it must have been a moment for the both of us at random. I really do wish you are well.

Take care,

[REDACTED]
