Larry,

As per our phone conversation, see attached Marketing Bulletin for ACMS upgrade (i.e. Cabin remote); and Airshow 4000 V2 with Airshow App (and demo set up instructions). Also, you can watch these videos on YouTube about Venue and Airshow....

Airshow 4000 V2, https://youtu.be/baGSpTrw_LE
Airshow App, <https://youtu.be/ULrJb3-3svo>
Venue CMS, <https://youtu.be/pRA3AnPU1dE>

Also, plan to play golf on the Rockwell Collins team for the NBAA Maintenance Managers Conference (<https://www.nbaa.org/events/maintenance-conference/2017/>).

Golf day is Monday, May 1; registration and lunch starting 11:30am to 1:00pm, then shotgun @ 1:00pm. Address is:

Abacoa Golf Course
105 Barbados Drive
Jupiter, FL 33458
Tel: [REDACTED]

You are now added to my team.

The show days are TUES-THUR at the Palm Beach Convention Center. I will have a Venue demo system at the show.

Let's discuss as needed, thanks.

Hello Larry,

I'm not completely familiar with the aircraft, do you know which Rockwell Collins system is on board? ACMS or Venue? I will also check internally for a past project.

There is a Remote App from Rockwell Collins, you can actually download it directly from the Apple App Store, search Rockwell Collins Cabin Remote.

This will get you some idea of its capability. But as for using the App this will require some level of software development with the complexity depending on what system is currently installed and what features are desired.

I'll be back in touch early next week; enjoy the Easter weekend.

Thank you,

Hello William,,

I received your contact information from Rusty Cramer at Gulfstream.

We just purchased Cyril number 5173 G550 from Chevron,,

The aircraft has the Rockwell Collins cabin entertainment system that utilizes two remotes,.

According to Chevron there was a fleetwide problem with these remotes and supposedly Rockwell Collins has an app for the iPad that we can use to control the audio system if this is true can you send me a link that I could download so I have a remote for this aircraft?

Thx

Larry Visoski
