I don't know if this is appropriate for Mort but this is something my team put together.

Let me know what you think.

Hi Joi:

If Jeffrey is still interested in sending Mort Zuckerman a short \$10 million proposal, one is attached. I've drawn heavily on your and Neri's articles for PubPub. We are asking for a chair in antisciplinary science and seed money to launch Design-Science.

Please copy me if you send it. I can also make changes.

My understanding is that others at MIT are reaching out to Mort as well, so I'll have to do some reconnaissance after you send it.

Thanks to Lorrie and Signe for their help.

Cheers!
