Greetings Rich,

The ambulance is on LSJ as of this afternoon. I apologize for not sending an update earlier. DW

1. Two thousand Malibu Celestial Solar Pathway Lights: EarthTech no longer carries the lights; the company that manufactures the lights has gone out of business. I found another vendor who has a version of the lights in stock. He is sourcing the 335 packs I requested. A quote will be sent in the next day or two.

2. Three John Deere 2030A Progator diesel 4wd traction units with dump body: Jack at American Export is working on a quote. Attached below is the quote from Cristian Ledesma of ShowTurf.

3. Three Terex RL-4000 Light Towers: The current model has been replaced with an upgraded model. Anna says JE wants the same model so he can use the disposed units for parts. Glenn Hauser of Discount Equipment is sourcing 3 old units with low hours as there are no unused units in stock for sale.

4. Three Kawasaki Brute Force 750 ATVs: I received the specs for the units from Tap today. Todd was not in the store today so I will email and call him tomorrow.
