I'm in Miami picking up BelCanto amps, after speaking to Christian, he really likes the B&W 802 speakers for front home Theater application, you have a pair in your library at Zorro., the new 802's have upgraded tweeters and drivers. B&W offers center channel to match.  
See options below.,

Dolby Atmos is latest processor, McIntosh does not offer this Technology in Mx121.,  
Integra operates Atmos in their new preAmp., (10day delivery for Integra).,  
Christian informs your control with Berringer EQ will give you big improvement to your current preamp processor.,

#### McINTOSH vs INTEGRA/MARANTZ

The McIntosh MX121 or MX151 is a beautiful processor with its gorgeous glass front panel and finish. They sell for \$6,500 and \$12,500 respectively and are very good units; however, they will have far less features than any of the PREAMP PROCESSORS quoted previously such as the INTEGRA or the MARANTZ. A new model McINTOSH will be introduced at CES 2015 in January, but not info is available on the unit(s) as of yet.

Hello Christian

How do think McIntosh MX121 rates against your Integra?

We currently operate an Integra, but we've been hearing the Macintosh Mx121 is a good preamp what are your thoughts against integra „my boss is asking?

Thx

Larry,

Bel Canto does not have a PREAMP that supports Surround Sound. This is the only PREAMP processor in their lineup:
