Subject: London talk

Date: Sun, 08 May 2016 22:17:41 +0000

Importance: Normal

the title of my talk October 25 in London, audience ~500, 35 pounds paid attendance each

"An Evening on Evolutionary Biology: An overview covering Feminism, Transgender, Homosexuality and Honor Killings."

\$3000 for me (i will already be in London paid for by Imperial College) and an almost certain corporate \$3000 add on

just as you outlined–this will create an immediate internet wave especially in the UK with coverage in all the major newspapers and so on

anyway i will concentrate on it, to the exclusion of individual pieces at the moment

all best
