Unfortunately it would require buck steel to do major design changes to match existing bolt pattern
It easier for us to cut and replace
The existing pattern came from American Steel

Rich

Danny and I have reviewed drawings from Buck Steel

Please note that the existing bolt pattern that is in place will have to be removed. and new anchors will need to be epoxied in to match shed from buck steel

I assume that Jeffrey is ok with Door placement

Would recommend Forward

Any concerns please call

Regards

Brice
