INSIGHTS FROM OUR EXPERTS

Derivatives: Good for Risk Mitigation and Growth

By Ross C. DeVol

As volatility in equity markets this year demonstrate, the world continues to be a risky place. Fast-moving changes in foreign exchange and commodity markets have real impacts on stock markets, business confidence and economies. [Read More »](#)

Peering into the Black Box of Hedge Fund Risk

By Donald Markwardt

Once upon a time hedge funds commanded a Midas touch, taking in plain old investor money and delivering golden risk-adjusted returns. In less than twenty years, hedge fund assets under management exploded from a fledgling \$100 billion elite society to a nearly \$3 trillion industry. [Read More »](#)

Redefining Psychiatric Disorders with Big Data

By Sonya Dumanis

Mental health disorders are binned into specific categories, such as depression or bipolar disorder or schizophrenia. Lately, there has been a shift in viewing these disorders as more loosely defined spectrums. [Read More »](#)

Limited Life: Trends, Strategies and Concerns About Foundations Spending Down

By Dani Salka

"The only way to avoid the pitfalls of philanthropic decay is to deploy resources quickly, in response to current problems. This means spending down all of your philanthropic assets during your own lifetime, without worrying about leaving behind an institutional legacy. The act of transferring wealth into a tax-exempt charitable vehicle should never be an end in itself." [Read More »](#)

The Great Online Lending Schism of 2016

By Jackson Mueller

No two lenders are exactly alike. And yet, when lumped under the term "online lending," platforms are generally viewed as the same — as platforms that employ technology to create efficiencies in the underwriting process to spur consumer and small-business lending. [Read More »](#)
