Jeffrey,
Update from Gary:

Thanks for the update. Are you going to start the engine repair or do nothing?
- Volo offered 500k but I told them we had \$800k for the engines alone. I told Ken Meeks (whose real offer was 600k for the engines) to speak with Scott Stanbaugh to see if they wanted to partner on the aircraft as Scott may be able to sell of the rest of the components. Still working the others
