**Subject:** Over 30 new Coursera classes starting in April

**Date:** Thu, 28 Mar 2013 10:26:42 +0000

## Dear jeffrey epstein

In March, we hit an exciting milestone: over 3 million students have joined the Coursera community since we began our journey in April last year. Today, Courserians hail from over 210 countries and have signed up for a staggering 10 million courses. As a company barely a year old, we're truly grateful to have you as part of our growing community.

Thank you,

Andrew, Daphne and the Coursera Team | [www.coursera.org/team](http://www.coursera.org/team)
