Futures

While technology develops at exponential speed, transforming how we go about our everyday tasks and extending our lives, it also offers much to worry about. What will be the jobs of the future? How can we prepare ourselves for accelerating change before it is too late?

In the next 10 years, we will see Artificial Intelligence do better than humans in translating languages (by **2024**), writing high school level essays (by **2026**), writing top 40 songs (by **2028**) and driving trucks!

Learn the skills that robots cannot and future-proof your organisation at Creative Innovation 2017 Asia Pacific. This is the premiere conference for leaders, innovators and change makers who care about creativity, innovation, leadership, change and transformation.

Early Bird tickets close on August 31st!
Register your team today to save up to \$615 on Ci2017 packages.

- Deep Conversation - \$160
- Master Classes - \$260
- Gala Dinner - \$225
- Special Platinum, Gold and Silver Early Bird packages
