Subject: Boeing update

Date: Tue, 19 Aug 2014 23:30:21 +0000

Jeffrey

Just landed, Boeing is in Palm Bch now, we had a good flight. I have to change a fuel boost pump, it failed and tripped the Circuit breaker during the flight. This is the second boost pump we changed since test flight, could be from sitting for 7 months. I'll have the pump changed tomorrow in Palm bch, we have 12 fuel boost pumps installed on the Boeing.

Otherwise the plane flew very good, also the fuel flow is working on the FMS systems as well.,

Thx,

Larry
