Christina,

Please approve the attached release - I am sending this out (re-spin of old topic) to keep Google News results moving. I still need some content from you on this but in mean time I am going to keep re-spinning our old ones if that is acceptable for you?

The topic is spun enough to make sense I believe, highlighting a secondary benefit of the funding rather than repeating the initial focus of a previous release.

Mr. Epstein - any input is welcomed. Want you to be aware of how press is being used. Any fresh stories / angles help us greatly here. The EJAF release was great but had to withdraw our outreach around it per [REDACTED] request. Maybe there is another interesting topic we can leverage...

Best

Tyler
