Importance: Normal

I am totally ready to come visit.

Do you need some comic relief...

Actually having a great time here but would LOVE to see your island.

Going home on Jan. 4th with Peter Brant. Larry Gagosian had a great dinner party last night. Send attached list.

Debbie and Leon Black are here on "Star Catcher"...I though she kept saying "Star Fucker". They have a lunch on Dec. 30th on the boat.

From last night...the email I sent to Sandy Gallin this morning...he was supposed to be on David Geffen's boat, but David ignores Sandy's blond uneducated boyfriend and the boyfriend refused to come on "Rising Sun"....so Sandy went to Donna Karan's.

To Sandy...

David G. made a rare appearance on dry land....and was the hit of the party. He came early and left earlier...with Dasha, who was on her way tonight to join Roman A. in Moscow for the Russian New Year. Beats me why anyone would leave the Caribbean before 2014 to freeze in that Red Square.

Janie and Jimmy Buffet send their love...and Robbie Robertson says life on the boat isn't the same without you.

Carol Bayer Sager and Bob Daley came with DG.

Brett Ratner and Lawrence Bender were additional L.A. people missing your bi-coastal take on the world.

Aby Rosen, Samantha Boardman, Catie and Don Marron with their very tall children, Debbie and Leon Black without their children because Larry hates children and forbids them at the party, Sir Ronald Cohen and Sharon Harel-Cohen from London: She just produced "The Invisible Women" with Ralph Fiennes and who brought their children by mistake, Izak and Sarah Senbahar, he owns part of the Mark Hotel.....Brooke and Dan Neidich, Katie Lee (ex-Joel) and Marc Jacobs and bf.

Peter Brant brought gorgeous Stephanie Seymour and their boys Harry and Peter, who were never children, so they got in....one of Julian Schnable's daughters was there...Stella?

Page six ran an item today planted by that idiot Andrew Saffir saying St. Barths is over. Yes, it is for morons like Andrew Saffir.

Jeffrey.....

(I personally an thrilled Ronald Perelman and Harvey Weinstein are gone!)

More later. On Austin Hearst's catamaran, "Slim" now.

Wish you were here...xoxo peggy
