To Whom It May Concern :

Please accept the following as a committee letter in support of the admission of [REDACTED]. I was fortunate enough to have met [REDACTED] during her time in the [REDACTED].

[REDACTED] Throughout the program, I acted as [REDACTED] executive director, and based on my experience with [REDACTED] I can say without a shadow of a doubt that she is one of the brightest and hardest working students with whom we have had the opportunity to work. It is clear to me that she has a very promising future in her chosen field of Public Policy and Foreign Affairs.

To begin with, I would like to clarify that The [REDACTED] [REDACTED] was designed for graduate and undergraduate students of International Relations and Political Science among other related subjects. Despite the high-level of competition, [REDACTED] has drawn our attention as not only one of the most determined and conscientiously diligent students, but she is also a refreshingly intriguing candidate. The combination of her willingness to be an active participant in the program and the experience and education that we believed [REDACTED] brought to the program led to an indisputably choice candidate, and she has proven herself. I see [REDACTED] as a confident, committed and passionate person willing to take the risks necessary to overcome and achieve.

During our sessions, we were honored to involve our distinguished diplomats and UN officials. Every student was given the unique opportunity to openly discuss substantial issues and express their opinions and insight on subjects pertinent to international issues and policies. It was here, that [REDACTED] was able to earnestly demonstrate her intelligence, independent and analytical thought as well as illustrate her leadership skills.

In my assessment, an investment in talented and devoted students, such as [REDACTED] is a beneficial and propitious decision. I am confident that she will grow professionally from this program, allowing her to climb to influential heights. In short, I believe that [REDACTED] is a promising and unique student. [REDACTED]

Sincerely,
