Subject: late night thoughts of a quantum physicist.. during the day.
Date: Tue, 07 May 2013 21:36:37 +0000

Thoughts following our conversation:

1. "One Universe?" attendees.. Frank Wilczek, Martin Rees, Brian Schmidt, Alan Guth, Andrei Linde.. among others.
2. External Advisory Board attendees that weekend (Jan31 -Feb 2).. Gross, Najafi, Poste, Sutherland, Altman, Rees, Bayer, Pinker, Erwin, Venter
3. Will email Jim Simons about meeting you to discuss Origins of Money and other things.
4. Proposed format of Jan 31-Feb 2: Jan 31.. One day Origins of Money workshop, to be attended by your boys and my boys, Feb 1, One day "One Universe workshop" to be attended by your boys and my boys. Feb 1 evening: Public event, panel discussion (see below) on One Universe. Feb 2nd, external advisory board meeting. PLEASE CONFIRM SOON WHETHER WE CAN DO THE MONEY EVENT HERE.
5. Here's the justification for our public discussions: You learn things by talking to smart people about topics that interest you. So, why not have public conversations between smart people on interesting topics so that other people who are interested can learn? Why should it just be you? We may not educate the uninterested or the uneducatable, but we can inform those who are interested and want to learn.. what is wrong with that?
6. We may have a 5th anniversary Origins of the Future event April 5th ish, to commemorate our amazing April 3-6, 2009 event with 100 of the worlds best scientist. Will have 4-5 panels (just for attendees but streamed for the world perhaps), on Synthetic Biology, Space Exploration, The Quantum Universe, Technology and Entrepreneurship. How about you organizing the latter... inviting 4-5 of your favorite people?
