This is fascinating. It could give Musk's Neuralink ([REDACTED]) lots of progress if they start experimenting with plants instead of human brains. They can take most important parts/qualities from plants and upgrade human brain with them.

I have a friend who constantly learns mathematics of plants and make design based on that. Once he created financial infrastructure and system for financial predictions based on what he learned from geometry of plants. His work

Jeffrey:

Attached is "Radical Breakthroughs" - with budget on page 4 and further (though still preliminary) development of the 13 episodes on pages 5-11. Much work will be done in the Pre-Production phase in discerning the optimal ideas, flow, stories, participants for each episode - with the twin touchstones of insight and appeal.

Your ideas, recommendations, people throughout appreciated - especially people for the mathematics episodes (Episodes 1 and 2 in particular).

I'm in Beijing; return to New York on July 19 through August 13 (other than July 25-26).

I look forward to working together.

Warm regards,

Robert
