Jeffrey,

Coinbase and BitFury are the two platinum plated projects in the space.

BitFury had a seed round, \$20M A (I invested \$50K), \$20M B, and they are getting close to a \$100M Series C. The opportunity right now is to invest up to \$5M in the \$15-20M convertible note that will convert into the large round. It should close by next week. Last round closed at \$500M and this will be priced at the middle of the \$500M round and the next. Looks like they will close between \$1B and \$2B so this note will convert at \$750M to \$1.25B. Attached is the deck. Please let me know if you have a moment to discuss.

Best regards,

Brock Pierce
