Beyond trivers.. what do you think of the group in January31-Feb1? Do you want to have the money thing here at ASU on the 31? Also, any suggestions for panels for our 5 year anniversary event in April? I was thinking of adding the Future of modeling consciousness and having steve pinker coordinate the panel.. just as I would like craig venter or george church to coordinate synthetic biology panel.. Quantum universe I want to center on new quantum technology.. Wanted one major scientist to coordinate each panel of 4-5.. have an hour panel discussion, and have 4-5 panels throughout the day. I would like to do future of technology.. and if you have someone you can suggest to coordinate it, or if you are willing.. then let me know.
