Good Afternoon,

Please note attached photos

This afternoon Peter was driving the Lull, coming down from the upper gate, for some reason which we have yet to determine the engine stopped causing loss of steering and brakes, again unsure why this occurred. He hit the back of the small tractor which Jules was driving, then hit the portable toilet block and finally stopping after hitting a coconut palm

No one was injured but the Lull sustained quite a bit of damage, it still can be used but the boom cannot fully extend and the forks are bend slightly. The mechanics will review all machinery and I will forward a complete report ASAP

Warmest regards

[REDACTED]
