---

Jeffrey,

I've requested Gary to send info regarding diamond in PDF form, he has used Winmail files in the past that I am unable to open,

Bell 430 update;

Design for arm rest has gone back to Engineering and will have direction mid week, hinge point has to be engineered fwd on seat back,, instead of 2 inch slide for arm rest. The plan is to install interior starting Monday and be completed by Friday, pending arm rest engineering change and fabrication. Edwards needs 4 days to repair cowling crack, best case is have 430 completed before July 4th.

If I'm able to have Edwards and interior shop work together in final work will speed up process.

Better update Monday 5pm.

Thx
