Discussions on where we were, where we are and where we are going in changing world of universal rhythms.

~ This Week's Guest: Ray Tomes - August 30, 2012 at 8pm Eastern ~

Ray Tomes founded the **Cycles Research Institute** which has as its mission to: Discover, understand, and explain the true nature and origin of cycles, to solve the mystery of recurrent rhythm observed in natural and the social sciences, and to instruct others in the application of this new knowledge for the greater good.

Mr. Tomes worked in computer modeling applications through which he gained an interest in interdisciplinary cycles. He found cycles in the New Zealand and realized that these were almost exact fractions of 35.6 years as well as other cycles also that relate to this figure. He went on to discover that his work yielded similar findings to what was already established by famed cycles researcher, Edward R. Dewey then he furthered these studies in his original work...

Harmonics Theory holds that the Universe consists of standing wave harmonics from which are descended the harmonies in which we live. Surprisingly this leads to a rich and detailed spectrum of universal frequencies that hold answers to the structure of creation from the microscopic to the astronomical realms of existence which exert influence on our everyday lives from economics and social change to the properties of physics and more.

What is Cycles Radio?" *Cycles Radio* explores the *Cycles of Change* based on the study of your host, K. David Katzmire, who has developed the theory for more than three decades to understand the *Cycles of Time*. Universal patterns can be found in a person, a nation and in the eras of civilization on different scales of size and time. Therein lie undulating energies of physical, emotional, intellectual and spiritual cycles that are replete through our lives in wonderful fractal patterns that we can discern once we unlock the simple code.

This fascinating discovery has led to notable accuracy in identifying the manifestations of energy that effect all aspects of our lives from; the leaders we choose, our business trends, scientific developments, arts & literature, music & entertainment, sports, fashion trends and much more, all moving to the same universal patterns. This weekly show is dedicated to exploring this inquiry further. Join us and see how these cycles may effect you in the days and years ahead and where you are in the tides of time.

Thank you, K. David Katzmire
