Hi Sultan,

Trust all is well.....

, with respect to Ivory Coast, below are what we did like to discuss with them (very similar theme to Gabon):

- a) We would like to discuss how Standard Bank can help Ivory Coast convert its "non-functional / non-revenue" foreign currency loan into its "functional / revenue" currency...so as to protect the Sovereign from fluctuations in FX rates as well as interest rates.....
- b) Another item to discuss is how Standard Bank can help Ivory Coast lock-in low interest rates in the current low rates environment on its outstanding floating rate loans...
- c) Additionally, Standard Bank will like to discuss how it can help Ivory Coast protect its revenue stream from oil production in the event that oil prices begin to fall...
- d) Finally, Standard Bank will like to assist Ivory Coast in providing funding for various infrastructure projects the sovereign wants to embark on....

Cheers,

Bunmi
