---

It is a misconception that I'm not hands on. I've crawled under ceilings and basements more times that I care to remember in order to get things fixed. At 3 am in the morning.

I need to get used to working with you and find out your expectations. Every principal have a different style. I got a pretty good idea about it now and I hope we can work it out.

Give me a bit more time to get up to speed with all projects and systems, have one on one meetings with the staff and provide you with suggestion on how to turn this place around.

Thanks

John

ok, but I suggest when i ask to see something from you, you respond with an ansswer / instead of me chasing you. i also think you need to udnerstand things, how things work etc. get your hands dirty. what is smiley doing or not doing at RO ? for example. putting your head after danny in the ceiling instead of watching and not learning. i want you to succeed.

Jill from Cool Sign is finalizing the drawing with the new directions I gave her. My drawing would not represent the end result since Jill works with her specific type of graphics program. She also had limitations to where she would place graphics and still provide warranty.  
I will call her this morning and find out when we can expect the modified version from her.
