---

Goldsmiths have rejected the gift!! (I could wring their necks)

Plan B. Could you send the money to the Network (an educational trust), they will contract with the Enhanced Education Trust and Andy to have the work carried out in Cyprus, and the rest of the team will visit and organise.

Andy's name is Andreas Ioannides and he is a very bright Physicist and mathematician. We worked for many years on magneto encephalography.

Skype tomorrow? Peter
