paul has secured nicole as a client at 250k per year beginning oct 1 accordingly our 500k from STC goes to 250k

on attached invoice paul used 500 as annual rate for sep 18-30 which probably is not fair but at the same time he has been trading for past 3 months for free please advise if ok to pay 78,938 on monday from STC thank you

Hi Rich

Take a look.

I did the following:

12 days (18th-30th Sept) @ an annual rate of \$500K and then one quarter at \$62.5 (\$250/4). As Nicole only starts on Oct 1st, the calculation I did was 12/365 *500K.

Let me know if you agree.

Paul

Paul Barrett
