 Dear Jee

There are just 6 days to go till Creative Innovation 2017 Asia Pacific. This is an event you cannot afford to miss to prepare for our accelerating future!

More than 50,000 financial services jobs across Australia are in the firing line as automation and technology accelerate through service companies over coming years. With NAB announcing that 6,000 jobs are to go just last week, it is imperative that we have the difficult conversations we need to have as a nation to manage this critical transition period.
