Ghislaine

I called you having read the attached.

Don't say anything right now.

You need local legal advice and that maybe to challenge jurisdiction and get this struck out. Once you have this we can revisit the issue of speaking out.

VR lawyer is a well known litigator and so it would be good to get someone of equal standing.

I would like to know where Dershowitz action has got to and his opinion on this claim if that can be obtained.

My view has always been that VR will return and return again until she is exposed as being a liar. Sadly events show this is right.

Subject to your local lawyers advice you need to file a challenge to jurisdiction, depose VR and prove she is a liar.

You should also look at any counter suits you can bring against her and then take a view as to whether or not you wish to make a counter punch.

The statements on which she seeks to ground jurisdiction look weak to me but you need good local advice.

I will see where we got to with the analysis of all her published statements as we will need this.

I am 100% here for you.

I can't see anything on the net yet.

Do you have a friend you can stay with whilst the immediate publicity blows over.

Philip

Hello Ross,

Nice talking to you just now.

Roberts sued Maxwell today.

Can you please send me any comment you would want in story?

Will need that tonight for tomorrow's paper (and story will go online soon as well.)

Can you also tell me what other times Roberts has sued Maxwell?

Ever before for defamation?

I've attached the suit to this email for your convenience.

Thanks,

Josh
